

Architecture

- Sensor activation linked to location, time, battery, connectivity.
- Daily behaviour pattern per user
- Alarms configured and triggered
- Application usage

Equipment deployed

- 159 Facilities
- 160 Tablets
- 159 Magnetic sensors
- 637 Motion sensors

Total: **946** Devices

Data collection

6 Millions Sensor events collected

20K Average sensor readings per installation, per month

20 Average events received per minute

Services & Apps in use

App for informal / formal care giver

Service provider dashboard
